FRIDAY, July 27—6 P. M.

The stock market has been strong and active to day, and prices have in most instances experienced a further advance. The most active of the railway shares were Northwestern common and Michigan Southern, but the entire list of speculative shares showed considerable buoyancy. The bulls are encouraged by the extreme monetary case and the prospect of its being prolonged. Loans are made freely on call, with exceptions on time at two por cent, and the transactions at four are becoming more numerous. Many of the leading operators are out of town, but they are doing a brisk business by telegraph; and Wall street and the Saratoga races are thus being attended to simultaneously. Private advices from the latter place state that small balloons are let fly daily bearing the names of particular stocks much dealt in here as indicators of their future course according to the views of the balloonists. The following table of the prices current on the dates mentioned will serve to recall to mind the fluctuations in railway shares during the present year:—

Although the House Committee of Ways and Means are in favor of striking out that clause in Senator Sherman's Finance bill which requires holders of seventhrity notes to give four months' notice prior to maturity of their intention to convegt them into six per cent bonds, a highly objectionable feature still remains in itmanely, that which provides that after the 1st of January next ne part of the reserve of national banks shall be in the form of interest-bearing notes. This is intended, of course, to exclude compound interest notes; but as these are a legal tender for their face, we cannot see what right Congress has to take any such course as the one proposed with regard to them. It is, in fact, legislating away a right possessed by the holders of these notes under the authorizing act, and, in effect, qualified repudiation. The proposition was originally introduced in Congress by Mr. Hooper, of Massaclusseits, in the interest of the Boston bankers, influenced by a sense of jeatousy because the New York banks attracted deposits from Eastern cities through allowing interest to depositors, and they thought that if the banks were not allowed to hold compound interest notes those of this city would not be able to afford interest on deposits, and that the drain of capital towards this centre would therefore cases. The paltriness of this motive should have prevented either Mr. Hooper or Mr. Sherman from introducing the measure, but it seems that Congressmen are writing to lend themselves to almost anything. Should Congress pass the bill with this provision included in it the President will be doing a good service to the public credit by vetoing the whole.

Southern Minnesota and Northern Iowa were visited

credit by vectoring the whole.

Southern Minnesota and Northern Iowa were visited with a violent storm on the 22d inst., which did great damage to the crops and other property. The McGregor Western Hairroad lost fourteen bridges and some embankments, and business on the road, it is expected, will be suspended for a few days.

A COMPLAINT.

Mesers. Woodruff & Robinson sent in a complaint against Dr. Swinburne for interfering with their business, by preventing them from unloading a cargo of sugar from the bark Ocean Home, at a deck of their own choosing. The complainants allegs the Doctor informed them that they could odly unload at the outside of Atlantic Dock, or at Mr. Pinto's wharf.

After a long discussion, on motion of Mr. Bergen, the above was referred to Dr. Swinburne.

Mr. Bergen moved to adjourn, which was carried, the next meeting being fixed for Tucsday next, at three P. M.

Cholers in the City.

There has been a decided decrease in the number of cases reported to-day. Only six are mentioned, of which two were reported previously. The distributing process is being kept up vigorously, and if the weather is pleas ant the people of New York can hope to escape an epidemic cholers.

BATTERY BARBACKS ROSPITAL.

Cholera in Brooklyn.

There were nine cases reported and confirmed by the Sanitary Inspectors, five of which proved fatal, in Brooklyn, from twelve M. July 28 to moon yesterday, as will be seen below.

James Moon, 96 Nelson street. Taken sick at twelve M., on July 25. Died at half-past five A. M. on 20th inst. Iarael Moroney, Twelfth street, near Eighth avenue. Taken sick July 26, in the morning. Tending to cottapes

Inrael Moroney, Twelfth street, near Righth avenue. Taken sick July 28, in the moraing. Tending to collapse in afternoon.

Elien Sullivan, 28 William street. Taken sick at two P. M. on July 28. Better in A. M. of 21th.

Mrs. Grace, 44 Hamilton avenue. Taken sick at six A. M. on July 28. Dead same day.

Daniel Murray, 146 Wolcott street. Taken sick at nine A. M. 20 July 28. Died at four P. M. same day.

— O'Brien, Wolcott street near Conover. Taken sick July 28, A. M. Secondary fever afternoon of ame day.

A boy about sleven years of age, named Russell, Luqueer street, near Hicks. Taken sick evening of 25th and died same night.

Juan Lop 2, at Kings Gounty Penitentiary.

Patrick Croghan, Wolcott street, near Van Brunt. In collapse at nine P. M. 25th inst. Died same night, There were two hundred and fourteen burial permits issued from the Bureau of Vital Statustic in Brooklyn, from Bunday last, incleave, to Thursday night, which shows a decrease of about forty per cent as compared with the corresponding period of last week. Of the above number thirty-four deaths coourred from cholers.

Its now under the charge of Dr. Theyer, Dr. Waller having been assigned to duly as Inspector of Shipping. Gas and water has been admitted to the beilding within the past two days, while the cooking apparatus has been perfectly arranged, so that much greater facilities are now enjoyed there. The vocultation is very fair, and every possible care is taken of those under treatment.

Destructured the substantial of the Bealth Beard, it is difficult to say; but one thing is evident, and that is difficult to say; but one thing is evident, and that is the lime apriatiod in the gutters is laid on so lightly and af such intervals that its decodorning effect is scarcely perceptible.

one day is faisified by that of the next. For instance, it appeared quite certain on Thursday that the choiera had reached its climax, and was under the control of the medical officers, yet there were two fresh cases yesterday, one of which proved fatal. It is satisfactory, however, to loarn that the sick list showed thirteen less than the day previous. The vicinity of State street being reputed infected orders have been issued that boats from Governor's Island will avoid the Battery landing.

HAET'S AND DAVID'S BLANDE.

The reports from Hart's and David's Island to-day are more assuring than any we have had since the epidemit broke out among the troops there. There were no fresh cases of cholers yesterday, and no deaths on either island, but diarrhos continued to engross the attention of the medical officers.

For fear the cholers should be taken to the cavalry rend-xvous at Carliale by recruits enlisted in this city, recruiting for the mounted service has been temporarily suspended in New York and vicinity.

ONLY ONE CASE ON THE GEORGE AND HENRY. TO THE EDITOR OF THE HERALD.

Your paper of yesterday stated that four cases of cholera occurred on board the bark George and Henry, lately arrived from China. I wish you to state in your paper that the only sick man on board of my ship was sent to the hospital, and no other cases have since occurred.

THE CHOLERA IN PHILADELPHIA.

PHILADELPHIA.

PHILADELPHIA, July 27, 1866.

Five cases of chotera were reported by the Board of Health to-day up to two o'clock P. M., one of which proved fatal.

Savassan, Ga., July 27, 1866.

There have been twelve deaths from cholera and ten new cases during rwenty-four hours ending at noon to-day. The disease is abating.

## THE COUNTERFEITING CASES.

COMMITTAL OF RICHARD WEEKES.

United States Commissioner's Office.

Before Commissioner Osborn.

Yesterday Commissioner Osborn resumed the hearing of the case of Richard Weekes, who had been charged

Yesterday Commissioner Oeborn resumed the hearing of the case of Richard Westen, who had been charged with dealing in counterfeit money under the circumstances reported fully in the Hanalo of yesterday.

J. Ogden Murray, detective for the Treasury Department, was called:—He testified that he had purchased the money from Weeker as quaterfeit. He was not deceived in purchasing it, and had not made any effort to pean it.

Judge Stuart, on the part of the prisoner, and that there was sufficient for bolding the prisoner, and that there was sufficient for bolding the prisoner, and that there was sufficient for bolding the prisoner, and that there was sufficient for bolding the prisoner, and that there was sufficient for the deal of the commissioner—I commit the prisoner in default of ball to await the action of the Grand Jury.

Changes adalysts within a garage of the world for the prisoner—I commit the prisoner in a saloon kept as 24 William street, by one Ulrich. Treat introduced Murray to the prisoner, and a negotiation was opened for the purchase of counterfeit simmps. The prisoner procured one hundred dollars in fractional currency, for which Murray paid thirty dollars in good money. The prisoner does not like to February, 1884.

Murray was crow-miamined—He said he never saw the prisoner before or after that; had heard of him; Chick used to keep him "posted;" knew of no counterfeiters before he went into this employment.

The case was then rested, and the prisoner was committed for trial in default of ball.

CHANGE ADALTY SWOTT ALLAS "MILLY BUCE."

The affidavit on which the warrant for the prisoner's arrows was grounded set forth that he dealt in counterfeit money.

J. Ogden Morray sworn and examined by Mr. Courtney. He said:—On the 18th of December, 1866, I asw the prisoner in an ite vanit, 618 Broadway; Chick Treat introduced me to him; frest appeared to be acquainted with him; we said down and had a drink; Bartlett had a package of two hundred dollars in the dollar blies paid him thirty dollars in good money;

EXECUTION.

Hanging of George P. Chase at Joliet, Ill.

The Condemned was a Penkentiary Convict, and Hurdered one of the Wardens

of the State Prison.

HIS SPEECH AT THE GALLOWS.

HE DECLARED HIMSELF INNOCENT. &c. &co.

CRICAGO, July 27, 1866.

The execution of George P. Chase for the murder of Joseph F. Clark took place to-day at Joliet, in the county jail of Will county, Illinois, in the presence of the Sheriff, jury, and a few speciators permitted to be present by the statutes of our State

The murder was committed within the penitentiary of this State, located at Joliet, and the murdered man, Clark, was a deputy Warden of that institution. Chase was there serving out a sentence for larceny committed at Chicage. For some violation of prison decipline Clark called him from his cell, when Chase sprang toward him and strock him a terrible blow upon the left temple with a stone which he had previously concessed in his cell. The blow fractured the skull, and Clark died from the wound after lingering for some days in great suffering.

Upon the trial the defence was insanity, a very common defence in Illinois murder trials, and the plea was ably and forcibly urged by his counsel, but it proved of no avail, and he was convicted.

After conviction the case went to the Supreme Court, and the judgment was confirmed. Chase was a man of about five feet seven inches in height, of strong and muscular build, light complexion, sandy has, blue eyes, and with a very malign and vicious expression of countenance. For some time previous to his execution, under the teachings of his spiritual advisers he had professed to have experienced a change of heart and pretended to become deeply religious, and expressed supreme satisfaction with the manner of his being taken off, as he was consident it would afford him an immediate passport to the better world.

At a quarter to one o'clock Chase, having partaken of the sacrument was brought out of his cell. He displayed no unusual feeling, but looked around with a bruits, stolld air. The shrood and caps were adjusted by the Sheriff, and his arms were pinfoned. Prayer was then offered by the attending cleryman, during which Chase looked with a fixed and apparently unconcerned stare at the floor of the gallow

Justice."

The aheriff asked him if he was ready, to which he replied. "Ready sir."

At half-past one the drop fell and the miserable man had explated, as far as earth was concerned, his terrible deed. His death was very easy, his neck being instantly broken. After hanging a few minutes he was taken down and the attending physicians pronounced life extinct.

The Injunction Againer the Siock Yard Company.—
Representations having been made that the employes of
the Stock Yard Company continued to use garbage as
filing stuff at the abattoir in Communipaw, an order
from Chancelior Zabriskie was served yesterday morning
on Mesers. McPherson & Hurd, calling on them to sheet
cause why they did not obey the injunction previously
placed upon them. If this order be not attended to, a
motion will be made on behalf of the city of Borgen fee
the arrest of the representatives of the company.

A Matron.—On Thursday night a brilliant meteor
passed over the western part of Hudson county. If
pursued its course in a southerly direction, leaving in the
wake a variety of ever-changing streaks of light. The
astronomers who saw it do not agree as to its having a
narrative. Some say it had, and others as carnessly
aver it had been curtailed of its fair dimensions.

Another Fatal Railroad Accident.—As the quarter past six train for New York was approaching the Market street station on Thursday afternoon, a man who attempted to cross the track in front of the train was run over by the engine and several of the cars. On being taken up it was found that both his legs were cut off below the knees, there being also a severe contunion on the beed. He gave his name as George Clark, but refused to state his residence or family connections. He was subsequently identified by his father-in-law, a Mr. Samed Samth. Drs. Coles and Dodd proceeded to amputate one of his legs, but the poor man sanks or rapidly that they desisted. He died from sente pain and loss of blood at half-past seven. Deceased was nevestly-size years of age, and was the bend of a large and respectable family. No blame attaches to the engine driver, as every effort was made by him to stop the engine, but the unfortunate man was too close to the train.

FURNIAM OF THE YMER RLY. PATRICE MORAN, V. G.—The solemn obsequence of this lamented clergyman commenced yesterday forenees at ten o'clock, in St. John's church, Mulberry street. Over sixty priests attended, besides Archbishop McCloskey, Bishop Bacon, of Perland, and Bishop Bayley. The rush of people was an great that admission could be obtained only by tickets, and though the church was crewfied the street in front was thronged with hundreds who were unable to gain admission. When the offection deplacement was concluded by Fathers Hogum and Gervain assisted by Fathers Hogum and Gervain as deacons, and Father Hogum and Gervain as deacons, and Father Hogum and Gervain as the chiefer of the schools, marched in pre-cession. Nearly all sects were represented in the concession. Nearly all sects were represented in the concession. Nearly all sects were represented in the concession.
